

1. Year 1 Cluster Catalog

This chapter was published as L.C. Johnson et al. 2012, ApJ, 752, 95, and is reproduced by permission of the AAS.

We present the first results from the PHAT stellar cluster survey, the Year 1 cluster catalog. This work presents results derived from the first $\sim 25\%$ of the PHAT survey data, where we identify 601 clusters that make up the Year 1 sample.

1.1. Introduction

1.2. Observational Data

1.3. Cluster Identification

1.3.1. By-Eye Search

1.3.2. Catalog Completeness

1.4. Integrated Photometry

1.4.1. Aperture Photometry Procedure
